COUNTER RUST™ CA-300 **Metal Protection**
Calcium sulfonate, highly overbased

Application

Counter Rust CA-300 is an oil-soluble, highly overbased calcium sulfonate. It provides excellent corrosion protection in mill, slushing and hydraulic oils, short term rust preventives, coatings and greases.

Typical Properties

Test	Typical
Appearance	Dark fluid
Specific gravity at 15.6° C	1.13
Total base number, mg KOH/g	300
Total calcium, wt.%	12
Total calcium sulfonate, wt.%	28

Benefits

- Good dispersant and corrosion inhibitor
- Provides alkalinity
- Detergent and dispersant in lubricating oils

Storage and Handling

Recommended Max Long Term Storage Temperature	Ambient
Flash Point	>150° C
